INDUSTRY PROCESS & SOLUTION

Materials — Real-Time Material Visibility
Workforce — Maximze Efficiency
Asset — Maximize Equipment Utilization
Sensors — Wireless Environment Monitoring
Safety — Protect Lives

DOMINATE RFID IOT PLATFORM

CONSTRUCTION 365 CLOUD

Work Package Tracking
Activity/Task Tracking
Planned Labor/Cost Quantity
Productivity Tracking
Real-Time Dashboards
Reports

1 INTEGRATED SYSTEMS
Move from individual setups to a connected solution

2 MULTIPLE DEPLOYMENT APPROACH
To create a solution satisfying your environment

3 END TO END VISIBILITY
To analyse & upgrade the efficiency of entire process

4 ASSET LIGHT TECHNOLOGY
Which increase productivity without hurting the pocket

5 FUTURE READY TECHNOLOGY
To address changing business scenarios

Product Features:

- Coil Tagging and Tracking
- Component Order Entry
- Biometrics Payroll Management
- Mobile Application
- BI based Dashboards
- Cloud based ERP
- Customizable Modules/Plugins
- Multi-User Functionality
- SMS and Email Integration
- OCR Integration
- BI-Powered Analytics/Reports
- Payment Gateway
- Chatbots
- Inter branch Synchronization
- IoT Integration
- 3rd Party ERP Integration
- RFID & Bardcode Integration
- Multiple Language

Product Benefits:

- Increased Processss Efficiency
- Planning and Analysis
- Increasing ROI
- Assimilation of Data
- Diversity of Business Processes
- Marketing Strategies
- Project Management
- Operation Automation
- Digital Document
- Optimizing Planning
- Revenue Estimation
- Decision-Making Process
- Facilitating Cost
- Quick Data Transfer

UNDER CONSTRUCTION

77%

organization believe most financial approvals will be automated within the next five years.

- Panorama
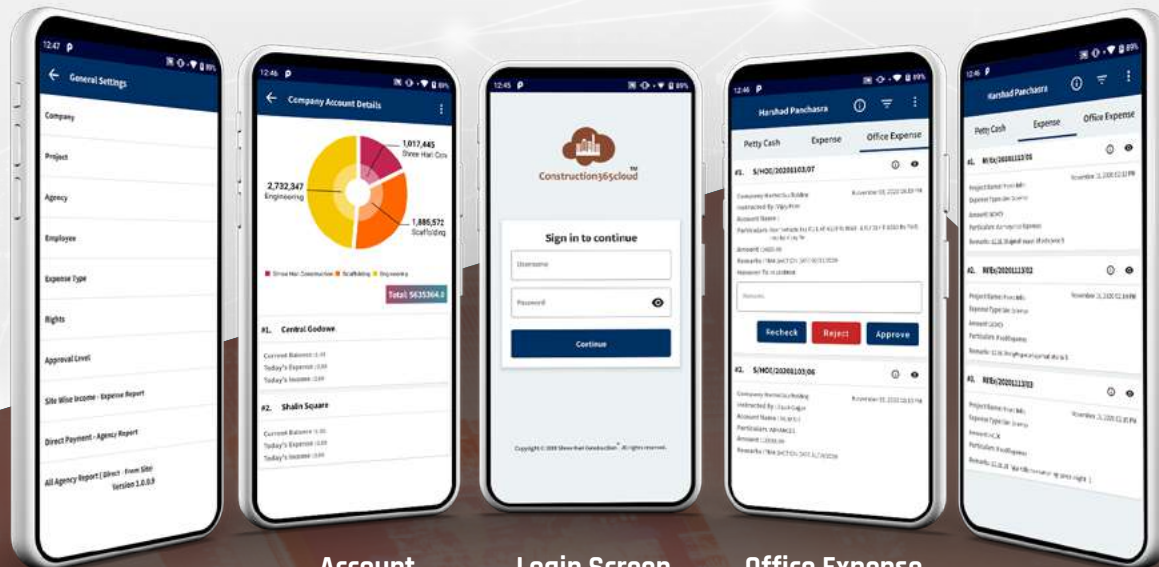

A handy and simple to access, construction mobile application is the primary method to increase a construction business's productivity. Not just this, a construction app can track analytics, help representatives to cooperate real-time, give access to refer to the project right away.

57.5%

In a survey of small businesses with 50-99 employees, 57.5% strongly agreed on investing in cloud and hosted solutions.

- Panorama

DEPLOYMENT TYPE WE OFFER

DEDICTAED SERVER

It offers immense power and flexibility, but usually comes at a premium. Your options here could include an upgrade to a virtual private server (VPS) or a dedicated one.

CLOUD

Working in cloud-based environments makes it easy to create and build towards establishing a high degree of integrated functionality plus the deployment is much simpler, faster and less expensive as no on-site infrastructure is required.

OWN PREMISES

It's best for those who don't prefer internet glitches and the entire solution is deployed on a static IP hence zero dependency on third party servers.
